SonicCell® Cube Parts Cleaning System

Introducing the SonicCell® Cube,

a small footprint, superior performance parts cleaning system.

This high efficiency two-station parts cleaning system removes machining lubricants, polishing and lapping compounds, and blast media residues from a wide variety of parts and substrates.

Test results have matched or exceeded final clean particle requirements.

Features:

- **Full enclosure**
- **Small footprint**
- **Superior cleaning**
- **Automated, touch screen operation**
- **Part-specific fixturing**
- **Multiple mechanical cleaning actions: powerful ultrasonics, vertical agitation and high impingement spray**
- **Filtration and sparger to trap contaminants away from cleaned parts**
- **Hot rinse with agitation**
- **Regenerative air blow off to produce dry parts**

Model	Work Area
Cube 1420	14”DOT X 20”FB X 14”D
Various	Custom sizes available
